Re: GrafNav/Net and Inertial Explorer Training Seminar

Due to continued customer interest, the Waypoint Products Group will be conducting a training session for its GrafNav/Net and Inertial Explorer post-processing software **on November 17-19 2009** at the Holiday Inn London - Heathrow. The first two days (November 17-18) will cover GrafNav/Net (GNSS post-processing) while the third day will cover Inertial Explorer (GNSS/IMU Post-Processing).

As GrafNav/Net is imbedded within Inertial Explorer and there is significant overlap between the packages, those interested in the Inertial Explorer training are required to also take the GrafNav/Net training. Exceptions can be made for advanced GrafNav users who wish to attend only the Inertial Explorer portion of the course, however no concepts covered on days 1&2 will be repeated on day 3. Please contact support@novatel.ca if interested in more information about attending only the Inertial Explorer portion.

The course is composed of hands-on training intended for end-users performing kinematic GNSS and/or GNSS/IMU data processing, and it will be taught by Waypoint's support and software development engineers. Having some previous exposure to GrafNav/GrafNet and/or Inertial Explorer will be very beneficial.

Cost
- Two day GrafNav/Net course: US$600
- Two day GrafNav/Net + 1 day Inertial Explorer course: US$900

Refreshments and lunch are included as well as a training material and sample data. Payment must be received by 27th October 2009 and can be made by VISA, MasterCard, or American Express. All payments will be processed on 3rd November 2009. Entrants must secure their own travel and accommodation. Rooms are guaranteed to be available until October 26 2009.

Registration
Please register by 2nd October 2009 by completing one registration form below for each entrant. Depending on availability, registrations will continue to be accepted past this date until the course is full. Please return the form electronically to support@novatel.ca. Once your registration form is received, you will be sent by email either a confirmation of seat availability or notice that we are unable to accommodate your request. If you do not receive confirmation within 2 business days please contact Waypoint (in Calgary, Alberta, Canada) by phone at (403) 730-4124 or (403) 730-4110 or by email at support@novatel.ca.

Requirements
Waypoint will supply the software and hardlock keys for the duration of the course. Entrants will be required to bring a laptop computer. We generally spend several hours processing customer data and therefore we ask that entrants bring their own problematic data or any data typical of their application that they would like to process during the course.

Location
Holiday Inn London - Heathrow
Sipson Way, Bath Road
West Drayton, Middlesex
London UB7 0DP, United Kingdom
Tel: +44 (0)20 8990 0000

The room rate for those attending the course is £99 and includes an English breakfast. Please contact support@novatel.ca for an accommodation form which must be returned to the hotel by fax or by email. Rooms are guaranteed to be available until October 26th 2009.

Number of Entrants
Due to the tutorial and hands-on nature of the course, it is necessary to restrict the class size to approximately 20. Spaces have historically filled up quickly, so be careful not to leave booking too late. Applicants will be registered on a first-come basis. Waypoint reserves the right to cancel the course if too few people register prior to 16th October 2009.

GrafNav/Net (Nov 17-18) and + Inertial Explorer (Nov 19) Training Schedule

November 17	7:00-8:00	English breakfast (Rottisserie Room)
	9:00 - 9:15	Welcome and introductions (Burnham Room)
	9:15 - 10:15	GrafNav Background and Theory
	10:30 - 10:45	Coffee break
	10:45 - 12:00	GrafNav Training
	12:00 - 1:00	Lunch
	1:00 – 3:00	Training with provided GrafNav data
	3:00 - 3:15	Coffee break
	3:15 - 4:30	Training with provided GrafNav data
November 18	7:00 – 8:00	English breakfast (Rottisserie Room)
	9:00 - 10:30	Introduction to GrafNet (Burnham Room)
	10:30 - 10:45	Coffee break
	10:45 - 12:00	Hands on training with provided GrafNet data
	12:00 - 1:00	Lunch
	1:00 - 3:00	Training with customer GrafNav or GrafNet data
