

Re: GrafNav/Net and Inertial Explorer Training Seminar

Due to continued customer interest, the Waypoint Products Group will be conducting a training session for its GrafNav/Net and Inertial Explorer post-processing software on **June 2-4 2009** in **Calgary, Alberta, Canada**. The first two days (June 2-3) will cover GrafNav/Net (GNSS post-processing) while the third day will cover Inertial Explorer (GNSS/IMU Post-Processing).

Separate pricing is available for those who wish to attend only the two day GrafNav/Net portion. As GrafNav/Net is imbedded within Inertial Explorer and there is significant overlap between the packages, those interested in the Inertial Explorer training are required to also take the GrafNav/Net training. Exceptions can be made for advanced GrafNav users who wish to attend only the Inertial Explorer portion of the course. Please contact wpsupport@novatel.ca if interested in more information about attending only the Inertial Explorer portion.

The course is composed of hands-on training intended for end-users performing kinematic GPS data processing, and it will be taught by Waypoint's support and software development engineers. Having some previous exposure to GrafNav/GrafNet and/or Inertial Explorer will be very beneficial.

Cost

- Two day GrafNav/Net course: \$600 US (GST included)
- Two day GrafNav/Net + 1 day Inertial Explorer course: \$900 US (GST included)

The cost includes a light breakfast and buffet lunch each day as well as wine & cheese at 4:00 PM on June 2nd 2009. A training manual and sample data is also provided. Payment must be received by May 14 2009 and can be made by VISA, MasterCard or check. All payments will be processed on May 15 2009. Entrants must secure their own travel and accommodation (see the 'Location' section below).

Registration

Please register by May 14 2009 by completing one registration form below for each entrant. Please fax the completed form to Waypoint at (403) 295-4501. Registrations can also be returned electronically to wpsupport@novatel.ca. Once your registration form is received, you will be sent by email either a confirmation of seat availability or notice that we are unable to accommodate your request. If you do not receive confirmation within 2 business days please contact Waypoint by phone at (403) 730-4124 or (403) 730-4110 or by email at wpsupport@novatel.ca.

Requirements

Waypoint will supply the software and hardlock keys for the duration of the course. **Entrants will be required to bring a laptop computer**. We generally spend several hours processing customer data and therefore we ask that entrants bring their own problematic data or any data typical of their application that they would like to process during the course.

Location

The training will be held at the **Executive Royal Inn – North Calgary**. If the Waypoint training session is mentioned when making a reservation, rooms are guaranteed to be available at a rate of \$129.99 CDN per night (taxes not included) if booked prior to May 19 2009. After this date room rate and availability is not guaranteed. Contact information for the hotel is as follows:

Executive Royal Inn Hotel & Conference Centre Calgary

2828 - 23 Street NE, Calgary, AB T2E 8T4

Toll Free: 1-888-388-EXEC(3932), Other Enquiries: (403) 291-2003 Fax: (403) 291-2019

Email: northcalgary@royalinn.com

Number of Entrants

Due to the tutorial and hands-on nature of the course, it is necessary to restrict the class size to approximately 20. Spaces have historically filled up quickly, so be careful not to leave booking too late. Applicants will be registered on a first-come basis. Waypoint reserves the right to move the class to an internal office location if too few registrations are received by May 14 2009.

GrafNav/Net (June 2-3) and + Inertial Explorer (June 4) Training Schedule
